1. General

Changes

To ensure that the changes coming into force are presented in the correct chronological order, this release replaces Release 1.4 of 6 March 2025. Only the version number has been updated; the two releases are identical in terms of content.

Due to the adoption of the sector allocation method used by the Swiss Federal Statistical Office (SFSO), the latest Release 1.3 provided new tools for allocating counterparties to the institutional sectors and subsectors surveyed:

- SFSO allocation matrix, based on legal form and NOGA codes
- Request information from the SFSO's Business and Enterprise Register (BER)

At the beginning of January 2025, the SFSO announced the finalisation of the new version of the General Classification of Economic Activities (NOGA 2025) (cf. SFSO [website](#)). NOGA 2025 will also be incorporated into the statistics produced by the SFSO from 2026.

Based on the SFSO's timetable and various responses from the reporting banks on the technical implementation of NOGA 2025, application of the allocation matrix has been postponed to January 2026. The 'SFSO allocation matrix' provided in the latest Release 1.3 will be supplemented by NOGA 2025. This will allow the sector allocation to be made on the basis of both NOGA 2008 and already NOGA 2025 from 2026 onwards. The SNB expects the internal changeover to NOGA 2025 to be completed by the end of 2026. In addition, some clarifications have been made in the notes to ensure consistency with the allocation matrix.
